Keeping the Liquid & Bulk Industries Flowing

With "Hands-On" Personalized Service

Since IES was founded in 1981, we have been focused on serving the liquid handling industry. From the beginning, we have sought to establish and maintain "one-on-one" relationships with all of our customers. IES's approach to customer care, including our well-known "Store-to-Door" service, has set us apart from our competitors.

Our customers know that they can rely on us to listen to their concerns about specific problems and provide effective and cost-saving solutions. We believe that getting to know our customers and really understanding their requirements have been the keys to IES's success. In response to customer feedback, we are pleased to now offer complete industrial and hydraulic hose assemblies "while-you-wait," along with a new storefront.

Our fully stocked 7,500-square-foot warehouse holds hoses, valves, spill response equipment, safety-related items, hydraulic fittings, cam and groove fittings, hose reels, ducting, gauges, gloves, aerosols, new solvent-resistant acrylic sight glass, gaskets, hose, clamps, Leatherman tools, speedy dry, ice melt, hand warmers... and much more. If an item that we don't have in stock is requested, we then make it a point to bring that item into stock.

In short, we strive to have what you need, when you need it... and we'll even deliver it to your door.

Industrial Hose and Fittings

- Air, water, asphalt, gasoline, discharge, composite, rubber PVC, Teflon[®], silicone and many other hoses
- Cam and groove, air, pipe, auto locking, universal and other fittings in materials such as stainless, aluminum, brass and polypropylene

Hydraulic Hose and Fittings

- Thousands of fittings and adapters always on hand
- Crimp machines to handle from 1-6 wire braid hydraulic hoses
- English and metric fittings available

Tank Truck and Liquid Handling Material

- Multiple brands of fittings and hoses, including silicone hose for "under-the-hood" applications
- API adapters
- Drop elbows
- Solvent-resistant acrylic sight glass
- Gauge sticks
- Overfill protection products
- Spill response equipment

Terminal and Dock Equipment

- Composite hose
- Loading arms
- Overfill monitoring equipment
- Grounding products
- API couplers
- Strainer baskets
- Diaphragms
- Solenoid valves
- Hose buns
- Water draw-off valves
- Filters
- Metal braid hose
- Hose covers
- Slings
- Hydrant nozzles
- Nuts and bolts
- Valves
- Signage

Safety-Related Products

- Absorbent material
- Safety hard hats
- Glasses
- Coveralls, vests, gloves and boots
- DOT signage
- Hose buns
- Safety valves
- Lock out / tag out material
- Safety cones
- Spill response kits
- Safety lighting
- Sprays and aerosols
- Hose reels
- Confined space material
